

Santa's Light storage bag & Reels

Final Assembled Product

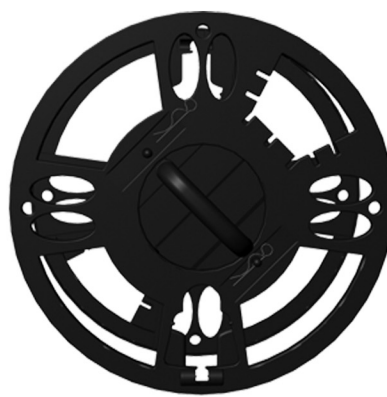

This Kit Contains:

- A. Inner rotating core assembly
- B. Spool Handle
- C. Spool Side Pieces (X2)
- D. Rack Pieces (X2)
- E. "R" Pins (X4)

Step One:

Closest to the middle of each of the two spool sides there are two holes. Align these holes with the protruding ends of the inner core. Fit the spool sides into place and move on to step two.

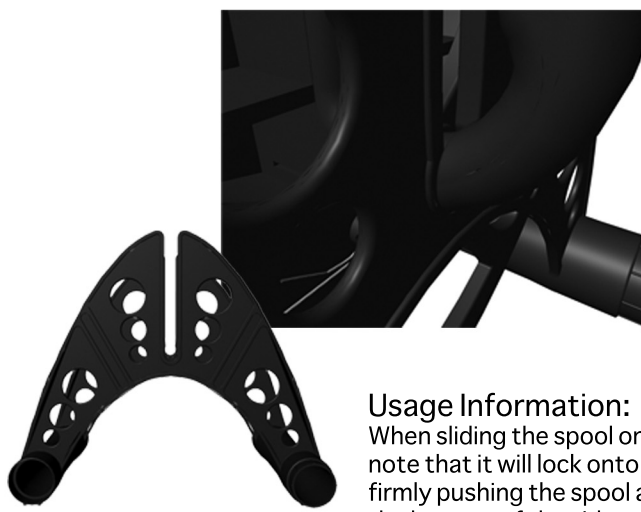

Step Two:

Insert the "R" pins onto the inner core assembly and secure the outer spool sides into place.

Step Three:

Assemble the rack by snapping the two half pieces together. Once assembled, attached to the bottom of the carrying bag using the velcro straps located at the bottom of the bag. Inster the spool into the rack when ready for storage.

Usage Information:

When sliding the spool onto the rack, note that it will lock onto the rack by firmly pushing the spool all the way to the bottom of the side rack slot.

Usage Information:

For best performance, make sure to align the groove in the spool handle with the rack insert slot when inserting the spool.
